

PREMIER

PREMIUM QUALITY PRIME LABELING SYSTEM

PREMIER

This new premium quality, in-line labeling system sets a new performance standard for pressure-sensitive labeling.

Premier will apply paper or the new thin film "no label look" pressure-sensitive labels to a wide variety of oval, rectangular or cylindrical containers at speeds up to 400 products per minute with $\pm .5$ mm accuracy. Premier is available in any number of configurations including front/back, wraparound as well as custom. The machine shown is in a front/back configuration.

TECHNOLOGY

Specifically designed to meet the stringent demands of today's high-speed, multishift operations. Premier features microprocessor or PLC controls and heavy-duty construction including line-shaft product handling. Optional redundant labeling heads for continuous non-stop operation can be added.

Product changeovers are fast, accurate and repeatable with precision 4-axis head mounts. Quadrel's M2 microprocessor control features onboard diagnostics, product and label counters, rate indicator and memory for 50 label presets.
