

# Jet-A-Mark® 8000 SERIES PRINTHEADS Drop-on-Demand™ Ink-Jet

Experience low ink consumption and increased reliability with next generation, ink-jet printheads.

- Precision jewels set in a stainless steel faceplate provide dramatically lower ink consumption & cost per code
- Fast start-up and color change without purging
- Wide variety of ink types to match your applications
- Exclusive electronics and valve design deliver high quality prints at line speeds, up to 780 fpm

Matthews DOD technology has a performance record of solving the most challenging, industrial and packaging coding applications. Our new 8000 Series printheads deliver low ink consumption with high print quality and improved speeds.

Find your recommended solution by selecting the printhead for your application. With up to twelve choices, we're certain to have a solution to meet all your identification needs.
