

Fully Automatic Case Former
Up to 30 cases per minute

Fully Automatic Tool-less Case Former

The WF30 fully automatic case former introduces a new level of refinement and performance and raises the standards for ease of use, case forming quality and customer value.

The WF30 features a case squaring system and an enhanced Pin & Dome system that together ensure accurate forming throughout the process and easy handling of common imperfections found in corrugated boxes that can impact efficiency and quality. Built for sustained high speed applications, for glue or tape, this operator friendly machine will handle your most demanding packaging needs.

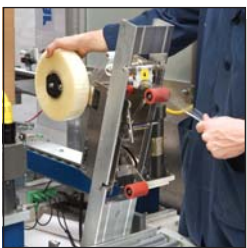

Pin & Dome System

Vacuum free case opening is accomplished using the "Pin and Dome" technology. Each case is mechanically captured and positively squared with precision and reliability unmatched by any other system.

Easy Set-up Guides

A color-coded tactile guide and easy tools-free adjustments, provide for convenient setup and quick changeover in minutes.

Tilt-out Tape Head

Minimize downtime with the quick, easily accessed bottom tape head, for fast tape changes.

(Tape version only)

WF30 Case Former

WF30 Fully Automatic Tool-less Case Former

WF30 Features

Build your own pre-sets for case sizes and speeds or have the Case Connect System calculate and suggest settings for you

Tool-less, color-coded case size changeover in under 10 minutes

Advanced fully interlocked safety guarding allows easy access for service

Tilt-out tape head for quick, easy tape roll changes (on tape version)

Fully automatic Remote Demand Control, pauses production when the discharge conveyor is full

No vacuum: equipped with WEXXAR's latest generation of patented 'pin and dome' case opening technology

High capacity case feed magazine with positive case separation

Positive case squaring, delivers square cases in a fully upright position, ready for packing

Available in tape or glue version

Easy to maintain; using the highest quality commercially available components and backed by WEXXAR's warranty and experienced, nationwide distributor service team

Complete Solution

BEL 250 Tape Sealer

Fully automatic uniform case taper equipped with DEKKA high performance stainless steel tape heads seals a wide range of case sizes.

BEL 270 Glue Sealer

Designed to satisfy the demands of heavy duty industrial applications, the BEL 270 sealer fits easily in any packaging line application.

WF30 Specifications

Case Size Range	Length	Width	Height
Minimum	6" 150 mm	5" 127 mm	5" 127 mm
Maximum	24" 610 mm	17" 432 mm	16" 407 mm
Machine Speed: up to 30 cases per minute. Oversize model available			

* Specifications are subject to change without notice.

How the WF30 Works

The WF30 forms RSC and HSC cases.

1 Quick Size Changeover

The color-coded design allows for safe, easy, and quick size changeover in approximately 7 minutes.

2 Touch Screen Control

The control panel features a user friendly touch screen to control and monitor all systems and to calculate optimum settings for cases sizes.

3 Pin & Dome System

A flat case blank is opened by pins injected into the flutes opening the case perfectly square.
